

FamilyMart's Approach to the SDGs

Working with the World to Create a Sustainable Society

In order for human society to continue to develop and grow, environmental and social sustainability is essential. Through our business activities, we will contribute to the achievement of the Sustainable Development Goals (SDGs), which are common global goals adopted by the United Nations.

Achieving the SDGs = Sustainable Development of Corporations

Materiality at FamilyMart

- Materiality 1** Contributing to the future of the earth and its regions through environmental awareness
- Materiality 2** Evolving as a regional revitalization base close to people
- Materiality 3** Creating safe and reliable products and services to bring convenience and richness to everyday
- Materiality 4** Working with suppliers to pursue a sustainable supply chain
- Materiality 5** Building a motivating work culture with driven employees

Our efforts to achieve the SDGs are based on our materialities, which we have identified based on the expectations and requests of our stakeholders as well as external environmental and social issues. Addressing important issues and contributing to the achievement of the SDGs will also help us realize our basic principles.

We aim to achieve the SDGs, realize a sustainable society, and become a familiar convenience store that connects with each of our customers like a family member becoming an integral part of the community.
